## Resources for schools to promote access to early help

Below are a range of resources containing important information relating to Wakefield Families Together, Family Hubs and the Team Around the School. Schools can share this information with parents and families via school websites, social media pages, parenting apps, text messages, bulletins, posters – and/or any other creative way!

All the information in this resource pack is simple, specific and ready to use or adapt; in the hope that the increase in promotion and engagement across Wakefield will enable families to become more familiar with Wakefield Families Together, schools have the information accessible for families to access before the point of concern, and so parents can ask for help at an earlier point.

**Add information to your School's Website:** *The text below can be used on your school's website to promote Wakefield Families Together. We would love this to be added to its own 'Wakefield Families Together' section, or if there is a relevant 'parents support' or 'family support' section.*

### Wakefield Families Together

Wakefield Families Together brings services together, so that it's easier for you to find and access the support you need, at the earliest opportunity.

We want children, young people, and families to tell us they are happy, healthy, and safe. Wakefield Families Together are about working on your behalf so that if you have a concern about your child or family member, you only need to have one conversation with us, and we can direct you to the right support. You can access this support through your child's school, family hub, or in the local community.

To help us localise how we work with families across the Wakefield district, we have grouped our teams and partner organisations into six community 'cluster' areas, with nine family hubs and three Youth Hubs. You can find your local Family Hub or Youth on the Wakefield Families Together website here: [Family Hubs – Wakefield Families Together](#) and here: [Youth Hubs – Wakefield Families Together](#)

to deal with a difficult situation, or have worries around family relationships, behaviour, school attendance, emotional and mental health, domestic abuse, parental conflict, housing issues, or employment and debt problems, Family Hubs can help direct to the right people and services.

Sometimes the concerns you have may need a group of professionals to come together to build a package of support with you and other family members so that we have the right expertise to help the whole family. Persons TAS Leaflet\_

*This new leaflet was co-produced with young people, some of whom have been discussed at TAS previously and may be in receipt of support.*

*The way to use this new resource is that when a member of school staff is discussing TAS with a young person, this leaflet will help to explain what TAS is and what support it may result in for the young person and the family.*

*The completed form should be provided to your TAS lead along with the TAS Request for Support form so that it can support the discussion at TAS, enabling feedback to the young person regarding the outcome, based on their identified needs.*

**Poster for school buildings:** *print and display around the school*
